

Whispers - Learning to Channel

Starts November 12th, 2016 at ShenDao, Uppsala.

There are many forms of channelling which can be confusing if not clearly understood. This course specifically focuses in areas that will help clarify and empower your channelling gifts through the correct activation and use of the higher senses.

The practical methods given in this course will help develop your higher senses to become stronger, which will give you greater clarity whilst channelling. The higher senses are: clairvoyance - third eye activity - the seeing of spirit and abstract energies and clairaudience - throat chakra - the hearing of spirit.

I teach and guide from experience and will oversee all that happens.

This channelling course runs for three consecutive Saturday's from 9.00 to 17.30.

Dates of the course:

12th November, 2016.
